

BOARD OF EDUCATION POLICIES

A policy is a statement of principle or an operational guideline established by the Board to regulate the general operation of the School District.

Policies shall be adopted to insure compliance with the laws of Wisconsin and the United States, and to reflect the Board's responsibility to the community. The actions of the Board and the District Administrator shall be governed by these policies. Changes in District needs, conditions, purposes, and objectives may require revisions, deletions and additions to these policies.

Policies or amendments to policies may be proposed by any member of the Board or the District Administrator. The public may propose new policies or policy amendments to the District Administrator or School Board President to be presented at regular Board meetings. Policy proposals may be referred to the District Administrator for detailed study and recommendations prior to action by the Board.

All policies or amendments shall be adopted by a majority vote of the Board at a regular Board meeting subsequent to the meeting at which the matter was introduced.

The District Administrator shall be responsible to develop and maintain a Procedures Manual to implement the policies which govern the operation of the school.

All policies in force and the Procedures manual shall be appropriately bound, keep current, and made available for examination by any interested citizen of the School District during normal school hours.
