

HEALTH EXAMINATIONS

All students entering kindergarten will be expected to have a health examination prior to entering school. The health examination includes a physical and a dental examination.

All students newly enrolled in school may be required to show evidence of a recent health examination.

Health examinations are to be performed by the physician and dentist of the parent's choice, and the cost is to be assumed by the parent.

A completed school physical examination form and dental card shall be filed in the district office no later than the close of the first week of school and will be recorded in the student's cumulative record.

The teacher, administrator or his/her designee will follow up by letter, telephone, conference or home visits on students who fail to file the required health examination forms.

The foregoing health examination requirements will be waived if they conflict with a student's religious convictions and if a statement to that effect, signed by the parent, is on file in the district office.
