

TORNADO DRILLS

Tornado drills will be held periodically during the tornado season, which is the springtime of the year and the early fall season.

The principal will prepare a definite tornado emergency plan, and furnish each teacher and students with information as to the route and manner of exiting to a safe place. Tornado drills will be planned in such a way as to accomplish the exiting of the students to a safe place in the shortest possible time and in the most efficient and orderly fashion.

The principal will see that all legal requirements are complied with in their buildings. A record will be kept of the tornado drill(s), stating the date each drill was held and the time required for the students to reach their places of safety.
