I understand that the district's filter is not a foolproof tool in screening out unwanted information. No approach will ever be successful in totally preventing children using the Internet from accidentally or intentionally accessing inappropriate material or coming into contact with a dangerous individual. Such risks are inherent with the use of the technology. If a user inadvertently accesses material that is considered Prohibited or Restricted, he/she should immediately disclose the inadvertent access to the supervising teacher. That information will then be forwarded to the District Coordinator of Instructional Technology so modifications can be made to the filter to prevent further access.

I will instruct my child regarding any restrictions against accessing material that is contained, but not limited to, within the district Responsible Use Policy. I will emphasize to my child the importance of following the rules for personal safety.

I give permission for my child to use the district network/Internet systems.
