

Dear Prospective Families,

I want to personally thank you for your interest in the Merton Community School District! Having lived in the community for over 13 years and having two of my three children in our school district, I can assure you that we are a school district filled with great opportunities for kids as well as a very caring and knowledgeable staff. We are excited about the opportunity to showcase our district as we was ranked 5th according to Wisconsin's Report Card rankings. Our Mission is to foster academic excellence while inspiring curiosity and personal growth. I want to highlight some characteristics of our schools that you may or may not be familiar with.

- Merton Intermediate and Primary Schools all “Significantly Exceeding Expectations.”
- Focus on the core subject areas while infusing 21st Century teaching and learning strategies to create curiosity for student’s passions. Our focus is to prepare our students for a rigorous high school experience while fostering college and career readiness skills.
- Our Science program features required STEM coursework for all students 5K-8th grade with a heavy focus on Project Lead the Way programming (Gateway and Launch).
- Our Social Studies program focuses on key principles of citizenry, history, world/regional geography, and our interaction with the world around us.
- Personalized Mathematics and Literacy approaches which supplement our core curriculum (Everyday Math and Columbia University’s Reading/Writing Units of Study) with individualized curriculum using online platforms focusing on individualized programming and growth. Our district uses the Measure of Academic Progress (MAP) assessment to showcase student growth in math and reading. The district also uses a common reading benchmark to see progress on the College and Career spectrum. These results are used to give us details about what your child is doing well, and areas of growth. We also use these results to differentiate instruction as part of our RtI commitment.
- Our middle school grades have electives focused around art, music, and STEM.
- One to one (1:1) access to have **every** student 3rd-8th grade with a personal technology device (Chromebook). A 2:1 ratio of student to technology device (chromebook) in the Primary School (4K-2).
- Utilization of Google Applications (Apps) by our students and staff. By using Google Apps, we continue to allow our students ways to collaborate and create together. As our staff capacity and learning grows, so will our students’ knowledge of Google Apps.
- Strong commitment to Response to Intervention (RtI). Every grade level (4K-8) has time devoted to meeting the individual needs of our diverse learners. This gives grade levels and resource teachers opportunities to remediate and extend our students in the areas of math and literacy.
- Our district has common behavior expectations across all grades 4K-8 (Positive Behavior Intervention Support, PBIS) - “The Merton Way”

- Strong communication across all stakeholders
 - Weekly Electronic Communication from the Building Principals and Teachers
 - Frequent Updates from the Superintendent including:
 - Upcoming Board of Education Agendas
 - Summary of Board of Education meetings
 - District updates and reminders
 - Teachers report grades, homework, and messages using Skyward
 - Board of Education meetings are viewable online.
- District schools continue to be recognized by the DPI for being High Achieving/High Progress Schools.

These are just a few highlights about the Merton Community School District. More information can be found on our web site at www.merton.k12.wi.us. With a focus on academic excellence and fostering curiosity in our students, our Board of Education is committed to keeping our class sizes low as a benchmark to ensure great student engagement, teacher relationships, and continued social, emotional, and academic growth. My commitment of strong communication to our families and community will continue as we need to make sure our parents understand what is happening in all phases of our district.

Every parent has the choice to make any school district their district of choice. As you think about what next year might bring for your child, please keep the Merton Community School District in mind. If you have any questions or would just like a chance to sit down and talk with me or tour our schools, please let me know and I will certainly be more than willing to discuss the great things we continue to do for our students and community at a time that works best for you and your family. I can be reached at (262) 538-2227, or via email at russr@merton.k12.wi.us. Please let me know if I can be of any assistance.

Sincerely,

Ronald D. Russ, Ph.D
Superintendent
Merton Community School District
