

## **ILLNESS**

Staff members are required to send students to the health room should it be apparent that medical attention is necessary.

The student's parents or person designated by the respective parents are to be notified and asked to pick up the student if deemed necessary. The student will rest in the health room until the necessary transportation can be arranged. If the parents cannot be reached, the student will be kept in the health room, with continued efforts being made to contact the parents or other person designated by them to be contacted in an emergency.

The school is not equipped to handle ill students. Parents should make every effort possible to get the student home.
