Class	Description	Grades	Cost
3D Design and Programming	Explore the online 3D Design program TinkerCad as you first build a sample project to learn the basics, and then dive into your own design project to wrap up the course. Send your finished file to Mrs. Iwanski at the end of Summer School to have your project 3D printed on one of our machines. See something go from idea, to 3D computer model, to physical model in your hands over the course of 12 days!	3-7	\$5
Advanced Chess	Ready to take your game to the next level? We will explore advanced strategies and tactics including gambits, defenses, and endgames.	2-7	
Advanced Jazz Band	This class is only for students who were in Jazz Band last year, or who were given personal invitations from Mr. Jupp. This challenging class gives students the opportunity to stay in jazz playing shape over the summer and continue to progress as musicians. Music from a jazz etude book, as well as jazz band music will be played individually. Students will also listen to recordings of professional musicians and ensembles to grow their understanding of their instrument. Fee for new students only.	5-7	\$23
Animal Adventures!	Animals are everywhere, and in books they like to get into mischief and fun adventures! Let's read about some fun animals and create art together about the different animals we are reading about! Rainbow Fish, Biscuit, and Kitten (and many more!) are excited to meet you and go on their adventures with you.	4K-4	
Art at Home	Students will explore a variety of ways to create artwork with limited supplies at home, while learning about different artists, styles, and techniques. Art books and stories will also be shared on a regular basis. Students will be encouraged to use recycled materials, to look for interesting pieces around the house, and to create out in nature!	K-5	
Arts & Crafts 101	Each day will offer a new way to express yourself creatively. Working with different mediums and allowing experimentation with an outline, will give structure and offer a creative outlet for expression. By the end of the summer the "graduates" from the school of Arts and Crafts will have a new found sense of their own personal creativity.	2-6	
Band	This fun class gives students the opportunity to stay in playing shape over the summer and continue to progress as musicians. Music from our method book, as well as full band music will be played individually through Smartmusic. Students will also listen to recordings of professional musicians and ensembles to grow their understanding of their instrument. Students will need a working instrument and necessary supplies (reeds, oil).	5-7	

Class	Description	Grades	Cost
Beginning Chess	Want to learn how to play chess? This class starts at the beginning teaching you the basics, including how the pieces move, the object of the game, and some beginning strategies. Each class will begin with a Google Meet for the lesson.	2-7	
Books & Beyond Summer Book Club	Reading is more fun when we do it together! Let's get lost in some great books this summer! I will read a popular chapter(s) book out loud (live and recorded format) and students will have the option to read a personal book to add to our discussion. We will go "beyond" the book with paired weekly activities that tie to the theme of the book, such as a drawing, craft or a cooking activity (activities will be video recorded).	4-6	
Books & Cooks	This will be a blended format of live and recorded classes. Live classes will be held 1-2 times a week. They will be recorded for students who may miss them and would like to watch them at a later time.	K-5	
Cartoon Creation	Students will learn a variety of cartoon design techniques, creating interesting stories and illustrations throughout the course.	3-7	
Christmas in July	Do you love Christmas and wish you could celebrate it all year long!? Well you're in luck during this Christmas in July summer school course! Start the course by setting the scene with some snow themed books and crafts. Then dive into Christmas by painting your own 3D Christmas tree, and crafting ornaments to decorate it. Wrap up the course with some fun holiday games including Live Google Meet Bingo!!	K-4	\$10
Chrome Lab Music Maker	Get in touch with your inner musician with "Chrome Lab Music Maker Class!" Through this class we will engage and develop our music skills in a variety of ways through the online program Chrome Music Lab and other music skill developing activities. In this class you hone your listening and composing skills, and the best news is, everyone can be a composer!	3-7	
Commit to be Fit	This class is aimed to get students moving in their day. A healthy student should get at least 60 minutes of activity each day. These workouts can be done at the ease of your home, either inside or outside. All workouts can be modified to meet individual abilities, added bonus if your student has weights at home. Even better, parents can participate with their children!	4-7	
Craft a Day Keeps the Boredom Away	In this class students will listen to a book related to the daily craft and then create a craft. A video will show students how to do the craft and then students will work on it after they know how to do it. Students will be able to add their personal touches to each craft they do to make it their own. If you have a child that loves crafts this class is for them!	4K-5	\$15

Class	Description	Grades	Cost
Digital Scrapbooking	This class is aimed to get students creativity flowing. Students have many pictures on their phones or computer, creating a digital scrapbook is a great way to keep these memories. At the end of this class, you will have a beautifully created scrapbook that you can choose to print. *We will be using Shutterfly, parents will need to give permission to children to use website	4-7	
Disney Discovery	Students will travel around the world with Disney! We'll visit China with Mulan, France with Ratatouille and Africa with Simba. Explore the geography, folk tales, music, craftwork and foods of each region.	1-5	
Early Skills	This class will make early learning fun! This class will continue to build on gross and fine-motor skills, counting, number and letter recognition. Each day will include a developmental and skill building fun activity! This class will require a moderate amount of initial parent preparation for daily activities. Once the activity is created, your child will have hours of educational (and independent) fun that will keep them learning all summer long!	4K-1	
Foods for Fun	This class gets kids in the kitchen and teaches them some life skills! Each day students will make a healthy snack or meal. All of these meals can be made without using the stove or oven, however, an option to use the stove or oven, given parent permission, will be available. *students will need to use a knife for a few recipes	4-7	
Gardening for Kids	In this class students will learn about gardening by reading books, planting seeds and watching them grow, and doing craft activities. Students will document by drawing and writing what their seeds/plants look like each day. If you have a child that likes to get their hands dirty this class is for them!	4K-5	\$20
German-Fun with Learning	Learn German using songs and activities designed to be fun and meaningful for students 5K-6th grade. The daily video will incorporate a structured routine using a combination of songs, instruction, and activities designed to keep students at this age group engaged. An additional video will be created for interactive opportunities for easy, stress-free practice, based on the daily videos created by Frau Winkel. (There will not be any writing or assignments with this class.) In addition, Frau Winkel will provide parents with links to short, appropriate, meaningful, entertaining, easy-to-access online videos. The videos and links will be created to enhance the learning experience.	K-6	

Class	Description	Grades	Cost
Guitar	Get acquainted with the basics of playing guitar! In this class you'll learn about how the guitar works, and learn basic chords to play for the guitar. By the end of this class, you'll have the tools you need to play basic songs on the guitar and even improvise your own short song. (Limit to 20 students because of the number of guitars we have).	4-7	
I Can Draw	Students will learn a variety of aspects of drawing subjects using elements and principles of design	4K-2	
Intermediate Chess	Now that you know the basics of chess, it's time to learn some strategies and tactics to improve. We will explore Scholar's Mate (4-Move Checkmate), tactics such as forks, pins, and skewers, openings, and endgames.	2-7	
Lego Inventor	Let your imagination run wild as you design and build with Legos! Make use of your engineering and art skills as you follow instructions to build and make use of your creativity as you plan your own lego designs.	1-6	
Lego Mania	Start "building" a great summer with Lego Mania! Let your imagination soar by creatively solving building challenges like an A-Mazing Race or the highest free standing tower. If you can imagine it, we will build it. Lego kit will be included.	K-5	\$20
LEGO STEM Challenges	This course is a great way to introduce fun STEM learning! The STEM activities will challenge you to imagine, engineer, and build using your own LEGO collection.	2-5	
Magical Miniatures	We will turn everyday items into cute miniatures that you can play with or just display. The activities in this class are based on the American Doll book Tiny Treasures. We will make a miniature bookshelf from a jewelry box, pet items using a bottle cap, shoe lace and fabric, plus many more items! Each class will be videotaped.	2-6	
Math Camping Trip	Time to go camping! Students will plan a camping trip for themselves and one friend. The camping activities are a review of these math skills: telling time, measuring, basic fractions, counting money and graphing.	2-4	
Middle School World Languages	Use the online Middlebury platform to start learning a new world language. Languages offered include Latin, French, German, and Chinese. Work at your own pace while practicing reading, speaking, vocabulary, and culture. Daily lessons will focus on study skills and strategies to record new learning. (Limit 10 students)	6-7	

Class	Description	Grades	Cost
Mindfulness 4K-4	Find ways to ease your mind by engaging in mindfulness activities! Learn new activities that calm both your brain and your body and encourage creativity in everyone. Find some balance with yoga, creativeness with Zentangle drawings, and much more!	4K-4	
Mindfulness 5-7	Find ways to ease your mind by engaging in mindfulness activities! Learn new activities that calm both your brain and your body and encourage creativity in everyone. Find some balance with yoga, creativeness with Zentangle drawings, and much more!	5-7	
Mo Willems Fun	Get to read some of your favorite Mo Willems' books and do some fun crafts/writing activities with your favorite friends, the Pigeon, Piggy, and Gerald!	4K-3	
My Summer Passport	You may be staying at home right now, but that doesn't mean you can't travel and see the world right from your own living room! We'll travel around the world and learn about different cultures, their languages, and their art! By the end of our class, you'll feel like you've just traveled the world!	1-6	
Origami	In this class students will learn about the Japanese art of folding paper to create figures. Each day students will have new images to fold and practice to master the art of Origami! Come and join in on the virtual fun!!	3-7	
Play Doh Inventor	Engage your inner artist and engineer with "Play Doh Inventor Class." We'll participate in daily challenges to create and design with play doh, and along the way we'll learn about the science and art of creating and building.	1-6	
Puppet Show	Throughout this course students will have the chance to build puppets and write scripts for 3 different puppet shows. Each course kit includes a special puppet show stage to set up in your home, and the materials to create 8-10 puppets. Design your puppets, write the scripts, and perform the show!	K-5	\$10
Sew Beautiful	In this class, we will have fun using needles, material, thread, etc to create our own unique projects! We will learn to cross stitch, make a flag pillow for the fourth of July, sew scrunchies, keychains, and our own ugly dolls!	3-5	\$10
Sign language for Beginners	Students will learn the history of sign language, ABCs, numbers to 20, foods, animals, and a few songs.	2-7	

Class	Description	Grades	Cost
Singleton Games and Projects during the Covid 19!	Are you sick of sitting in front of a computer for learning? Are you bored being stuck at home during quarantine? In this class, you will learn games for one person that only involve paper and pencil or a deck of cards to keep yourself busy. We will also do activities with things around the house. You will gain new ideas to keep yourself busy the rest of summer!	1-3	
Social Emotional Learning	This course will teach students how to handle their emotions and set goals through mindfulness videos and social emotional learning activities.	1-3	
Spanish-Fun with Learning 3-6	Learn Spanish using songs and activities designed to be fun and meaningful for students 3rd-6th grade. The daily interactive video will incorporate a structured routine using a combination of songs, instruction, and activities. The videos are designed to keep students of this age group engaged. Opportunities for easy, stress-free practice based on the daily video, created by Señora Winkel, will be offered through a google document shared with each student. In addition, Señora Winkel will provide students with links to short, appropriate, meaningful, entertaining, easy-to-access online videos.	3-6	
Spanish-Fun with Learning K-2	Learn Spanish using songs and activities designed to be fun and meaningful for students 5K-2nd grade. The daily interactive video will incorporate a structured routine using a combination of songs, instruction, and activities. The videos are designed to keep students of this age group engaged. An additional video will be created by Señora Winkel, for interactive opportunities to practice what was covered in the original video. (There will not be any writing or assignments with this class.) In addition, Señora Winkel will provide parents with links to short, appropriate, meaningful, entertaining, easy-to-access online videos. The videos and links will be created to enhance the learning experience.	K-2	
Story and Craft Time	This class will have a story and corresponding craft each day!	4K-3	
Summer Camp	Why miss out on all the fun that summer camp has to offer? This class will bring summer camp to your home! There will be daily camp-themed activities for your child to participate in.	2-7	
Summer Coding	This course will teach students how to handle their emotions and set goals through mindfulness videos and social emotional learning activities.	2-5	

Class	Description	Grades	Cost
Summer Math Maintenance	This Summer Math course is designed for ALL STUDENTS REGARDLESS OF ABILITY! The course has been created focused around some of the big mathematical concepts in each grade level . This course will be self paced with a daily video mini-lesson, then activities that will act as guided practice. These will include both digital and some good old fashion “math packet work.” The purpose of this course is to review this past year’s math skills and to keep kids doing mathematics throughout the summer.	K-7 Class at each grade level	
Summer Reading Maintenance	This Summer Reading course is designed for ALL STUDENTS REGARDLESS OF ABILITY! The course has been created focused around some of the Merton’s Essential Reading Skills that are taught throughout the year. This course will be self paced with a daily video mini-lesson, then activities/practice that can be then applied to literature the student is reading. The purpose of this course is to review this past year’s reading skills and to have kids apply this to their summer reading.	K-1 2-3 4-5 6-7	
Summer Writing Maintenance	This Summer Writing course is designed for ALL STUDENTS REGARDLESS OF ABILITY! The course has been created focused around some of the Merton’s Essential Writing Skills that are taught throughout the year. This course will be self paced with a daily video mini-lesson, then activities that will act as guided practice specifically in the area of writing. The purpose of this course is to review this past year’s writing skills and to keep kids writing during the summer.	K-1 2-3 4-5 6-7	
Tween Cooking	In this class students will make 12 different recipes throughout the summer school course. Recipes will include breakfast, lunch, dessert and snacks. If you like to cook/bake, come and have fun cooking this session. (Adult supervision is required)	4-7	
Tynker Coding: Design Your Own Video Game	Students will use the online Tynker platform to go through a fast paced course on block coding with an emphasis on creating interactive programs and game design. Review the basics of block code and then dive into more advanced features allowing for more interesting game design.	3-7	
Tynker Coding: Micro:bit	Students will use the online Tynker platform to learn block coding while seeing their projects come to life on a Micro Bit circuit board with LED lights. First learn to connect your board and write a few lines of basic code, then engage in daily lessons that allow you to do more and more with your board! The Micro:bit board is yours to keep at the end of the program! Keep coding this summer and bring back your amazing creations to show off in the fall!	3-7	\$24

Class	Description	Grades	Cost
Unicorn Lovers Unite	Start each day with a unicorn story before embarking on a unicorn creation adventure. Daily projects include: A ceramic unicorn bank, ceramic unicorn planter pot, unicorn wind chimes, scratch art unicorns, and 3D unicorn characters. Join our weekly unicorn Show and tell Google Meet to showcase your projects to your other unicorn loving classmates!	K-4	\$10
Where's the Loot?	Get ready for a summer of fun, adventure, and exploration! Each day will bring a new adventure. There will be a new activity planned each day involving scavenger hunts, exploring nature, and critical thinking.	2-7	
Yoga, Mindfulness, and Meditation	In this class, we will learn breathing and focus skills, ways to stay in the moment, and multiple ways to manage the stress of life. Each day we will do an activity that promotes mindfulness and we will end each class with a story and yoga!	K-2
